

DNA CREAM TO RESTORE YOUTHFUL-LOOKING SKIN

DR. CHEN® YOUTH EMULSION

Oi-Lin® Youth Emulsion represents the next generation of Sunrider's age-defying skin care line. Key ingredients in this breakthrough treatment combine to combat the visible signs of aging and promote a revitalized, glowing complexion. Inspired by DNA research, this formula features stem cells derived from a rare Swiss apple and a French grape to help restore and maintain youthful-looking skin.

RESEARCH & DEVELOPMENT

Owner expertise ensures that products are made with the right combination of ingredients and scientifically formulated to work in harmony with the body.

STATE-OF-THE-ART MANUFACTURING

Self-manufactured using the most advanced technology to achieve the highest standards of concentration, safety, and effectiveness.

MAXIMUM EFFECTIVENESS

Supports skin's natural ability to renew itself. Delivers intensive and continuous moisturization, leaving skin feeling soft, supple, and revitalized.

SUPERIOR INGREDIENTS

All-natural ingredients include hyaluronic acid, shea butter, and vegetable-origin squalane.

PHILOSOPHY OF REGENERATION®

Nourishes and balances to promote skin health and natural beauty.
